

JORGE LUIS CONGACHA

Master's Student in Economics (PEG)

j.congacha@uniandes.edu.co

PROFILE

I am a Business Administration graduate from Universidad de Nariño, currently pursuing a Master's degree in Economics (PEG) at Universidad de los Andes. I have a strong foundation in research, data analysis, and project management, with experience in political economy, development economics, public policy, economic history, political participation, conflict, and violence. My work includes literature reviews, archival research, data cleaning, coding, database construction, econometric analysis, and academic writing.

I have extensive experience working with large-scale datasets, household surveys, survey microdata, historical archives, electoral data, and spatial information. I am proficient in Stata, R, Python, QGIS, LaTeX, and Excel, and I enjoy combining programming and quantitative methods to answer research questions
